

FOLDING ARM AWNINGS

Folding arm awnings are a versatile product that can be used in any environment, from a residential backyard to a commercial cafe.

FEATURES & BENEFITS

Five models to choose from

- Select a model that suits your individual requirements and budget

Variety of different fabrics

- Multiple fabric choices to suit your individual needs

Huge array of colour & patterns

- Suit your tastes and existing decors

Different operation methods

- Choose gearbox and crank handle operation for a cost effective option
- Operate with a motor and remote control for ease of use, and optional extras will be available.

Pitch Control

- Available on selected models
- The angle/degree of the awning can be altered, to further block sun rays

Wind Sensor

- Available on motorised units
- Protects the awning from strong winds by retracting the blind when too windy
- Great for commercial environments

Sun Sensor

- Available on motorised units
- Extends the awning if the sensor reaches a pre-set luminance level
- Great for commercial environments

Welded joins on pvc fabric

- Added strength to your blind
- No breakdown or rotting of sewing threads
- No water seepage through the join

Attaches to existing buildings

- No posts or beams required for installation

Hooding box/pelmet on external mounted blinds

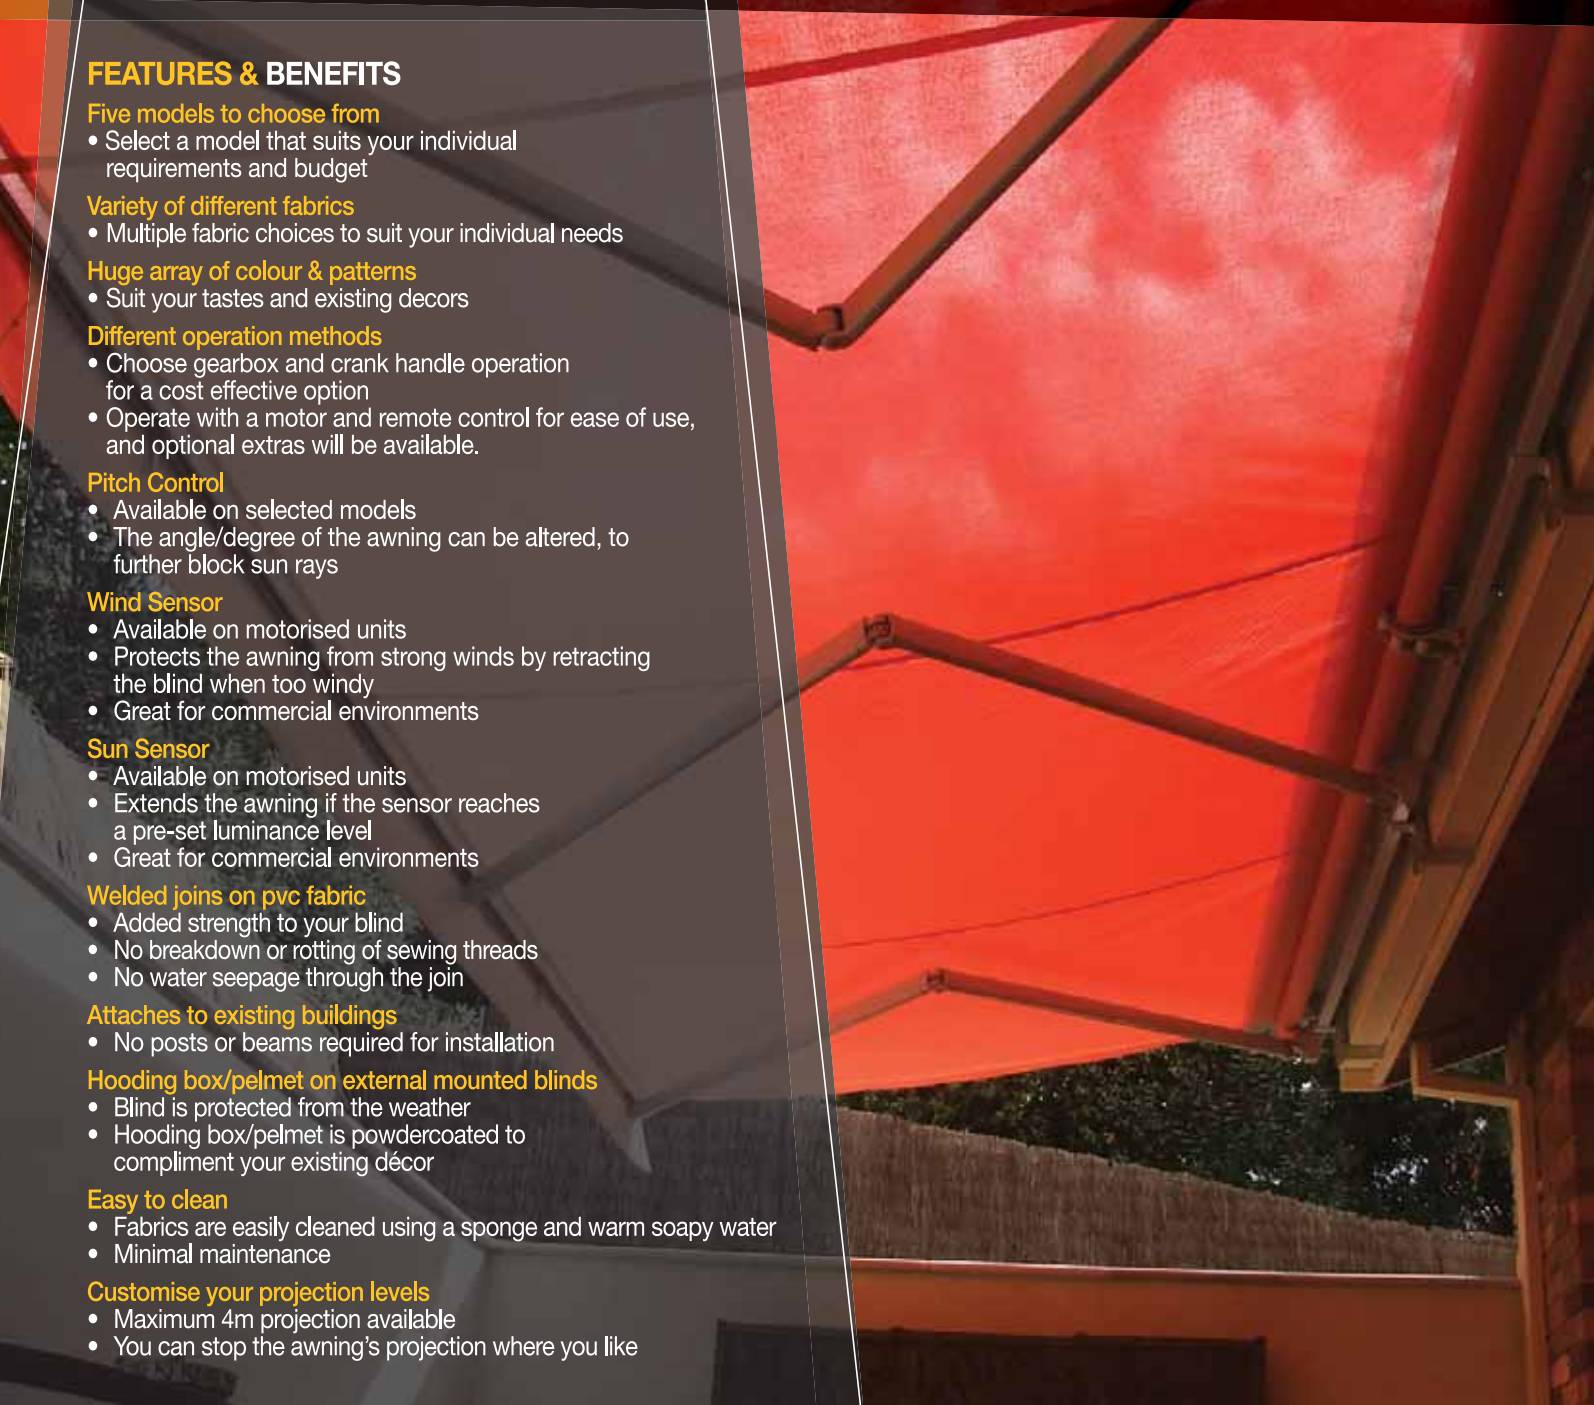

- Blind is protected from the weather
- Hooding box/pelmet is powdercoated to compliment your existing décor

Easy to clean

- Fabrics are easily cleaned using a sponge and warm soapy water
- Minimal maintenance

Customise your projection levels

- Maximum 4m projection available
- You can stop the awning's projection where you like

“As leaders in this market, **Shade ‘n’ Sails** specialises in custom made products that suit the clients’ **individual needs**, and allows designs of the **imagination** to become **reality**. The essence of **Shade ‘n’ Sails** is **quality construction** and design.”
