SUNBLINDS & AWNINGS

We can assist you in choosing the most practical application for your area. With various traditional or acrylic canvas, and shade screen fabrics available for shading and UV protection the choices are endless.

Different Types of External Protection

Automatic Sunblind

- This would be the most common design
- Covers the whole window area
- Operated by guides allowing for easy adjustment
- Can be stopped at any position over the entire drop of the window.

Fixed Guide Sunblind

- Most suited for upstairs or multi-level applications
- Covers whole window area
- Operated by guide bars permanently fixed
- Can be either internal or external operation by either rope & pulleys, or motorised

Folding Arm Awning

- Ideal for areas over doorways or limited space
- Do not require beams or posts
- Fixed directly into house
- Fully retractable awning extends to 4m projection
- Manual or motorised operation
- Has options of wind and sun sensors

Straight Drop Awning

- Ideal for covering in verandahs
- Operated as a spring loaded blind
- An alternative to the verandah/patio blind

Poly-Cotton Canvas:

- Opaque, green backed canvas
- Full UV protection
- Mildew and UV treated
- Large selection of plains and striped patterns

Acrylic Fabric:

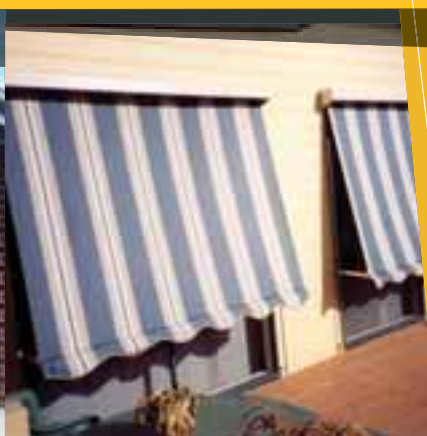

- Translucent woven fabric
- Mildew and UV treated
- Full UV protection
- Large selection of fashionable colours

Screen Fabric:

- Transparent PVC coated polyester
- Mildew and UV treated
- 90% UV protection
- Large selection of stripes and plains
